

CGT Summer Fellowship

December 2015

The Center on Global Transformation (CGT) Summer Fellowship was established to assist MIA and BA/MIA students at the UC San Diego School of Global Policy and Strategy (GPS) in conducting high caliber summer internships related to research on economic growth, equality and market change in the Pacific region. CGT will help fund two to four GPS students each year for work broadly related to economic analysis and policy research. Awards will range from partial to full support, which will be evaluated on a case-by-case basis.

Issue areas such as poverty, public health and enterprise development remain major research focuses of the Center. Through applied research and dialogue with government and business leaders, the Center is a resource for policymakers and enhances our region's capabilities in world affairs.
